

# Partnering in Pain and Mobility

Our goal is to discover and develop breakthroughs in animal health for diseases with significant unmet need. To achieve this, we're investing in cutting-edge science and technology to expand and accelerate our drug discovery for the next generation of treatments and preventive therapies. Together with our partners, we're working to deliver innovative solutions that address the big challenges in animal health, evidenced by the launch of two ground-breaking stem cell therapy treatments for horses – Arti-Cell® FORTE and RenuTend®.

Collaborations with innovative and entrepreneurial partners are helping solve the biggest challenges in animal health. We believe that by working together we can bring critical diversity to innovation and accelerate the next wave of therapeutics that will transform the health and well-being of animals now and in generations to come.

## Partnering Interests

Actively pursuing new partnerships in our research focus areas and open to a variety of partnership models to explore:

- Novel, non-opiate treatments for post-surgical pain
- Regenerative, disease-modifying approaches for OA, delivered orally or by infrequent intra-articular injection
- Analgesics with novel mechanisms of action
- Oral, non-NSAID chronic pain treatments with excellent safety profile.

## Research Focus

- Unmet needs in acute and chronic pain with convenient dosing solutions.
- Target, Repair, Prevent strategy investigates mechanisms associated with osteoarthritis and other chronic inflammatory diseases.

## Investing in Animal Health Innovation

**450+ million EUR**

R&D for new medicines

**Global**

R&D presence in Europe, N. America, Asia

**~1,200**

staff in R&D facilities worldwide

**>250**

innovation collaborations

## Some of our Products

**ARTI-CELL® FORTE**

(firocoxib)

**Metacam®**  
(meloxicam)

## Collaboration Driving Innovation

- Growing our global community of innovation partners
- Multiple collaborations advancing new therapies
- Long-term partnerships for the next generation of breakthroughs

## Meet the Team
